EXPERIENCE

WALLMANDER & CO - INTERNSHIP

Web Developer | Feb 2023 - May 2023

Storyblok - Investigated the possibility to automatically translate texts into different languages when applying new texts in the default language. I created a test server environment and made a mockup case.

BigCommerce - Created a Boilerplate with Next.js for future E-commerce use. I integrated BigCommerce and created dynamic component blocks suited to be customized from WordPress.

H5 FÖRNYELSEBYRÅ AB - INTERNSHIP

Web Developer | Okt 2022 - Dec 2023

Built a landing page from scratch for their booking site/service Adventure Hero to attract more users. I did this together with two other LIAs. We built the page with Next.js and Mantine (css library).

Website: https://business.adventurehero.se

In addition, I learned how to create tests in Cypress and helped them with the development of their other product Plugga. Tech. Also this built in Next. js and Mantine.

LEADERSHIP

ATRIA SWEDEN AB

Production Coordinator | April 2021 - Sep 2021

My job was to manage production and make sure everything ran as it should. In addition, I was responsible for ensuring that routines were followed and that work instructions were updated.

Ingram Micro Mobility AB

Group Leader / Specialist | June 2011 - Jan 2021

During the 10 years of service at Ingram I was the group leader of the production team in 6 years of them. My job was:

- To ensure that daily production ran as it should and that our KPI´s were reached.
- · Planning of personnel which meant continuous communication with other supervisors, sales support and consulting managers.
- · Accept assignments and meet deadlines. Constantly work with improvement of processes and routines, problem solving and follow-up of projects in the department.
